### Communication:

The policy will be communicated to staff/pupils/community in the following ways:

- Policy to be posted on the school website and located in Deputy Heads Office.
- Policy to be part of school induction pack for new staff.
- Regular updates and training on online safety for all staff.
- Acceptable use agreements discussed with staff and pupils at the start of each year. Acceptable use agreements to be issued to whole school community, on entry to the school.

### Handling Incidents:

- The school will take all reasonable precautions to ensure online safety.
- Staff and pupils are given information about infringements in use and possible sanctions.
- Online Safety Coordinator acts as first point of contact for any incident.
- Any suspected online risk or infringement is reported to Online Safety Coordinator that day
- Any concern about staff misuse is always referred directly to the Headteacher, unless the concern is about the Headteacher in which case the complaint is referred to the Chair of Governors and the LADO (Local Authority's Designated Officer).

### Handling a sexting / nude selfie incident:

[UKCCIS "Sexting in schools and colleges"](#) should be used. This extract gives the initial actions that should be taken:

There should always be an initial review meeting, led by the DSL. This should consider the initial evidence and aim to establish:

- Whether there is an immediate risk to a young person or young people  
*When assessing the risks the following should be considered:*
  - Why was the imagery shared? Was the young person coerced or put under pressure to produce the imagery?
  - Who has shared the imagery? Where has the imagery been shared? Was it shared and received with the knowledge of the pupil in the imagery?

- Are there any adults involved in the sharing of imagery?
- What is the impact on the pupils involved?
- Do the pupils involved have additional vulnerabilities?
- Does the young person understand consent?
- Has the young person taken part in this kind of activity before?
- If a referral should be made to the police and/or children's social care
- If it is necessary to view the imagery in order to safeguard the young person - in most cases, imagery should not be viewed
- What further information is required to decide on the best response
- Whether the imagery has been shared widely and via what services and/or platforms. This may be unknown.
- Whether immediate action should be taken to delete or remove images from devices or online services
- Any relevant facts about the young people involved which would influence risk assessment
- If there is a need to contact another school, college, setting or individual
- Whether to contact parents or carers of the pupils involved - in most cases parents should be involved

An immediate referral to police and/or children's social care should be made if at this initial stage:

1. The incident involves an adult
2. There is reason to believe that a young person has been coerced, blackmailed or groomed, or if there are concerns about their capacity to consent (for example owing to special educational needs)
3. What you know about the imagery suggests the content depicts sexual acts which are unusual for the young person's developmental stage, or are violent
4. The imagery involves sexual acts and any pupil in the imagery is under 13
5. You have reason to believe a pupil or pupil is at immediate risk of harm owing to the sharing of the imagery, for example, the young person is presenting as suicidal or self-harming

If none of the above apply, then a school may decide to respond to the incident without involving the police or children's social care (a school can choose to

escalate the incident at any time if further information/concerns come to light).

The decision to respond to the incident without involving the police or children's social care would be made in cases when the DSL is confident that they have enough information to assess the risks to pupils involved and the risks can be managed within the school's pastoral support and disciplinary framework and if appropriate local network of support.

### **Reviewing and Monitoring Online Safety**

- The School accepts that there may be particular circumstances in which a parent wishes their child to have a mobile phone for their own safety.
- Phones and devices must not be taken into examinations. Students found in possession of a mobile device during an exam will be reported to the appropriate examining body. This may result in the student's withdrawal from either that examination or all examinations.
- Students should protect their phone numbers by only giving them to trusted friends and family members. Students will be instructed in safe and appropriate use of mobile phones and personally-owned devices and will be made aware of boundaries and consequences.

## Staff use of personal devices

- Staff handheld devices, including mobile phones and personal cameras must be noted in school - name, make & model, serial number. Any permitted images or files taken in school must be downloaded from the device and deleted in school before the end of the day.
- Staff are not permitted to use their own mobile phones or devices in a professional capacity, such as for contacting children, young people or their families within or outside of the setting.
- Staff will be issued with a school phone where contact with students, parents or carers is required, for instance for off-site activities.
- Mobile Phones and personally-owned devices will be switched off or switched to 'silent' mode. Bluetooth communication should be 'hidden' or switched off and mobile phones or personally-owned devices will not be used during teaching periods unless permission has been granted by a member of the senior leadership team in emergency circumstances.
- In an emergency where a staff member doesn't have access to a school-owned device, they should use their own device and hide (by inputting 141) their own mobile number for confidentiality purposes and then report the incident with the Headteacher / Designated Officer.
- If a member of staff breaches the school policy then disciplinary action may be taken.

## Digital images and video

### In this school:

- We gain parental/carer permission for use of digital photographs or video involving their child as part of the school agreement form when their daughter/son joins the school (or annually).;
- We do not identify pupils in online photographic materials or include the full names of pupils in the credits of any published school produced video materials/DVDs;
- Staff sign the school's Acceptable Use Policy and this includes a clause on the use of mobile phones/personal equipment for taking pictures of pupils;
- If specific pupil photos (not group photos) are used on the school web site, in the prospectus or in other high profile publications the school will

obtain individual parental or pupil permission for its long term, high profile use

- The school blocks/filter access to social networking sites unless there is a specific approved educational purpose;
- Pupils are taught about how images can be manipulated in their online safety education programme and also taught to consider how to publish for a wide range of audiences which might include governors, parents or younger children as part of their computing scheme of work;
- Pupils are advised to be very careful about placing any personal photos on any 'social' online network space. They are taught to understand the need to maintain privacy settings so as not to make public, personal information.
- Pupils are taught that they should not post images or videos of others without their permission. We teach them about the risks associated with providing information with images (including the name of the file), that reveals the identity of others and their location. We teach them about the need to keep their data secure and what to do if they are subject to bullying or abuse.

## **The use of digital images and video**

To comply with the Data Protection Act 1998, we need your permission before we can photograph or make recordings of your daughter / son.

We follow the following rules for any external use of digital images:

**If the pupil is named, we avoid using their photograph.**

**If their photograph is used, we avoid naming the pupil.**

Where showcasing examples of pupils work we only use their first names, rather than their full names.

If showcasing digital video work to an external audience, we take care to ensure that pupils aren't referred to by name on the video, and that pupils' full names aren't given in credits at the end of the film.

Only images of pupils in suitable dress are used.

Staffs are not allowed to take photographs or videos on their personal equipment.

-----  
Examples of how digital photography and video may be used at school include:

- Your child being photographed (by the class teacher or teaching assistant) as part of a learning activity;  
e.g. taking photos or a video of progress made by a nursery child, as part of the learning record, and then sharing with their parent / guardian.
- Your child's image being used for presentation purposes around the school;  
e.g. in class or wider school wall displays or PowerPoint® presentations.
- Your child's image being used in a presentation about the school and its work in order to share its good practice and celebrate its achievements, which is shown to other parents, schools or educators;  
e.g. within a CDROM / DVD or a document sharing good practice; in our school prospectus or on our school website.

In rare events, your child's picture could appear in the media if a newspaper photographer or television film crew attends an event.

Note: If we, or you, actually wanted your child's image linked to their name we would contact you separately for permission, e.g. if your child won a national competition and wanted to be named in local or government literature.

## The use of social networking and on-line media

At Albion Primary School we ask parents not to take pictures/videos of children in a group setting.

This school asks its whole community to promote the 3 commons approach to online behaviour:

- **Common courtesy**
- **Common decency**
- **Common sense**

*How do we show common courtesy online?*

- We ask someone's permission before uploading photographs, videos or any other information about them online.
- We do not write or upload 'off-hand', hurtful, rude or derogatory comments and materials. To do so is disrespectful and may upset, distress, bully or harass.

*How do we show common decency online?*

- We do not post comments that can be considered as being **intimidating, racist, sexist, homophobic or defamatory**. This is **cyber-bullying** and may be harassment or libel.
- When such comments exist online, we do not forward such emails, tweets, videos, etc. By creating or forwarding such materials we are all liable under the law.

*How do we show common sense online?*

- We think before we click.
- We think before we upload comments, photographs and videos.
- We think before we download or forward any materials.
- We think carefully about what information we share with others online, and we check where it is saved and check our privacy settings.
- We make sure we understand changes in use of any web sites we use.
- We block harassing communications and report any abuse.

Any actions online that impact on the school and can potentially lower the school's (or someone in the school) reputation in some way or are deemed as being inappropriate will be responded to.

In the event that any member of staff, student or parent/carer is found to be posting libellous or inflammatory comments on Facebook or other social network

sites, they will be reported to the appropriate 'report abuse' section of the network site.

*(All social network sites have clear rules about the content which can be posted on the site and they provide robust mechanisms to report contact or activity which breaches this.)*

In serious cases we will also consider legal options to deal with any such misuse.

The whole school community is reminded of the CEOP report abuse process:
